ABC News

(NEW YORK) — As Las Vegas and Los Angeles area residents enjoy rare snow days, a storm is on the move, targeting the Northeast and South for the weekend.

Snowfall struck the Las Vegas Strip on Thursday — the most snow the city has seen in more than a decade. Las Vegas schools are closed Friday, giving residents a rare snow day.

Flagstaff, Ariz., had its snowiest day in the city's history with 35.9 inches.
